To whom it may concern,

This is to certify that our organization JSC Octopus has procured 26 pieces of CME-4311 seismometers used for field digital registration of broadband signals in the years 2016 and 2017 from LLC R-sensors, Dolgoprudny.

The instruments are in operation and proved to be well suited for field experiments. The performance of the instruments is excellent, LLC R-sensors provides proper consulting and maintenance service to our satisfaction

Kulikov K.V.,
Operations manager
